# WHAT IS BINARY TREE?

The Binary plan is a network marketing compensation structure wherein new distributors are placed in a binary (two legged) tree structure, or a left and a right subtree in the organisation.

The Calculation is unique for each and everyone in the organisation with respect to his placement in the binary.

PV: Potential Volume is used to manage calculation for binary commissions. PV's on both legs (Right and Left) are matched in equal proportions.

Referral Income: Direct Commissions are the commissions that a user receives as soon as he introduces some one into the system. Determination of commission depends upon the highest purchase made by you.

# REFERRAL INCOME & PV MATCHING WITH SAME CONTRACTS

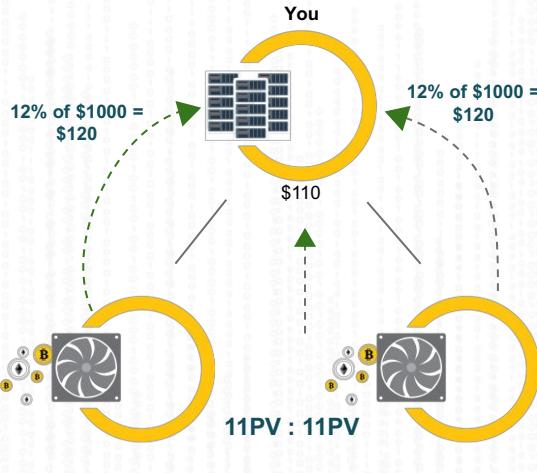

\* You are Rack Contract Owner

## Referral Commission

The time you introduce someone to Coinomia, you are eligible for a referral commission between 8% - 12%. Determination of commissions depends upon the purchase made by you.

## Binary Income

Binary Income is income from matching!

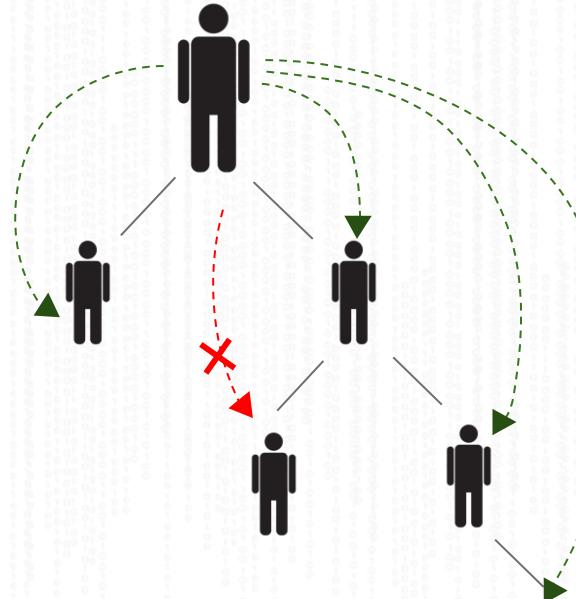

As soon as the direct member joins the network, you get a direct referral commission upto 12% (Depending upon his contract). As of now, when you already have 1 member under you in one of your Leg, you place the other one on the weaker leg to match the Potential Volume. Thus, by matching 1:1 PV, you get Additional \$10 Binary commission for matching.

## Repurchase Income

Repurchase Binary features table binary in the multiples of 3:3, 9:9, 27:27, 81:81, 243:243, 729:729, 2187:2187, 6561:6561. You can earn upto \$65610 daily if you and your team perform the level best. To get the benefits of Repurchase, you need to repurchase the product and get incentives from your downline.

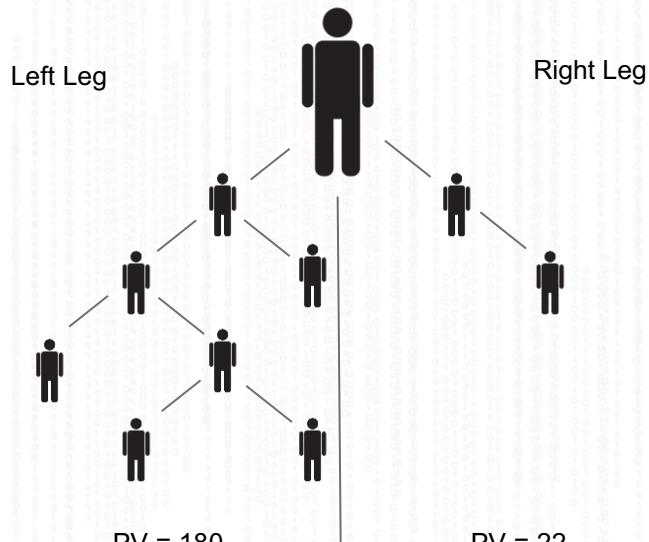

## Points to Remember

### #1 Spill Placement in extreme Right/Left !

User can add any member on his extreme right or Left to expand the team !

### #2 Daily Cap of 20 PV! Matching = \$200/Day for first purchase Binary

Assuming 180 PV's Happen On Your Left Leg In A Given Day And 22 PV's Happen On Your Right Leg , You Will Be Paid For 20 Matching PV's From Left And Right = \$200 "  
" The weaker leg will be flushed and power leg will be carried forward - In this case 158 PV's will be carried forward "

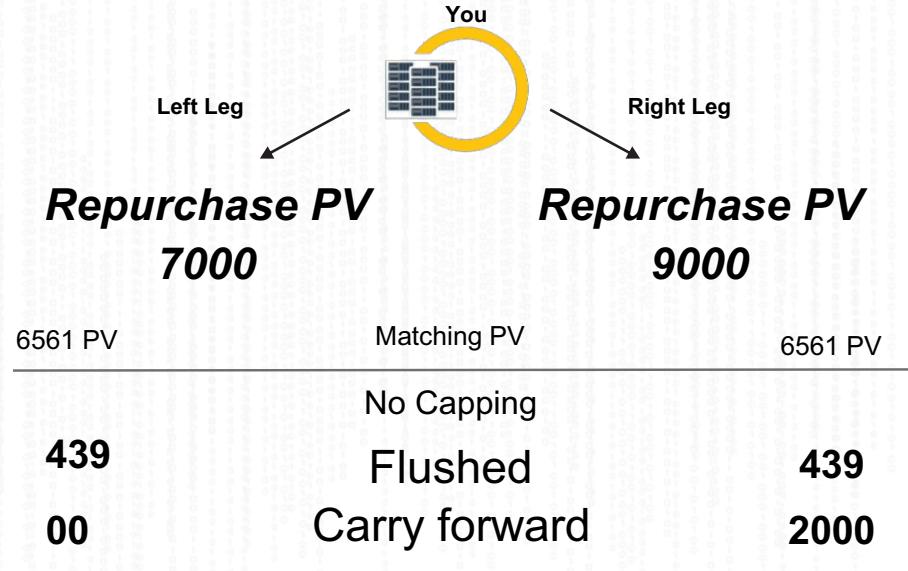

### #3 Repurchase Binary

#### **Different Levels Of Table Binary**

3:3, 9:9, 27:27, 81:81, 243:243,  
729:729, 2187:2187, 6561:6561.

1. The repurchase benefits will be available on all the repurchases by the downline.
2. The benefits of Repurchase, you need to repurchase the product and get incentives from your downline.
3. The PV's will be matched with the nearest multiple of Table Binary.

*In this case, the PV's are nearest to 6561, thus the volume will be matched accordingly.*

**INCOME = \$65610**
